1. Introduction. In this paper, we conduct a comprehensive survey that describes the current practice of corporate finance. Perhaps the best-known field study in this area is John Lintner's (1956) path-breaking analysis of dividend policy. The results of that study are still quoted today and have deeply affected the way that dividend policy research is conducted.

Several related strands of literature on law, institutions, finance, and economic growth have emerged in financial economics in recent years, and their impact on other areas of research has been significant. First, La Porta, Lopez-de-Silanes, Shleifer, Vishny (LLSV hereafter) and others have produced a substantial body of empirical evidence that links the origin of a country's legal system to ...
