Answers to Questions: 1) Fill the 3-liter jug three times, each time dumping the water from it into the 8-liter jug. The third time, this will leave one liter of water in the 3-liter jug, and the 8-liter jug will be filled. Dump the water from the 8-liter jug down the drain, and then empty the one liter of water from the 3-liter jug into the 8 ...

Spelling can also be a persisting problem for children who appear to have resolved their speech difficulties .In a recent study we compared the performance of a group of 7 year old children with speech difficulties with a matched control group of their peers (who did not have speech difficulties )on National (UK) tests of reading, spelling and maths. We then compared performance on the same ...

Skipping even a single problem will automatically lower your grade, which will hurt your overall grade for the math course. For example, if you were to skip 2 of 20 problems on a math assignment, the highest grade you could receive would be a 90%. So, put in as much time as it takes to finish all of the problems.

These are schedules I used when teaching third grade in Florida. Our teacher hours were 7:30-3:00, and students' hours were approximately 7:50-1:50 (depending on arrival/dismissal routines set up by school administrators). We had 6 hours total with the children, so minus a half hour for lunch, half hour for recess, and half hour for specials, that's 4.5 hours of instructional time. Not a ...
